# INTRODUCTION

To those not acquainted with us we wish to say that we have been growing trees here for twenty years or more and have always given our personal attention to the details of the business and find that the only way to secure satisfaction. We now offer to the planters for spring the best of trees **fresh from the nursery** with no agents or second and third parties to handle them.

**Dansville** is located in the valley of the Genesee about 40 miles south from Rochester and seems to be the home of the fruit tree. Certainly no place in the country enjoys a reputation for growing better trees than this town. Having **never** had any **injurious** disease or **San Jose Scale here** we can with pride offer our healthy and exceptionally strong grown stock.

**Flattering** letters from **customers** will be found in this price-list and we ask you to read them carefully.

We suggest that it will be to the profit of the planter to get trees

Fresh Dug ✿ Perfectly Healthy  
Exceptionally Strong Grown ✿  
True to Name ✿ , ✿ From a  
Good Grower. ✿

C. F. MAC NAIR

& COMPANY....

Dansville, New York

## TO PLANTERS :

We have been planting orchards of our own for some years and have therefore exceptional opportunities to learn the habits of a variety from first to last. We find some sorts that are very desirable on account of quality of fruit that have some fatal blemish, as a habit of seldom bearing, or of dropping the fruit, and we have pointed out those sorts that have proved of most value to us the past season.

### LOCATION.

We are located on the Dansville and Mt. Morris R. R., a branch of the Erie, and on the Delaware & Lackawanna.

### EXPRESS COMPANIES.

The Wells Fargo and the United States.

### DIRECTIONS FOR ORDERING.

**Order early,** for you get the choice of varieties. We will book orders any time and hold until spring for shipment.

**Write Orders Plainly.** Give Post Office, County, State, Express or Freight office and name.

**Packing Season.** Our spring shipping season opens usually the last week in March, but in spring of '98 it opened the first week in March.

**Grading.** We make a special feature of grading both by caliper, or diameter, and height. This gives a very uniform grade and is not followed by many nurserymen. See Testimonials.

**Terms.** Unless strangers can give *satisfactory Bank reference* our terms are cash before shipment.

**Packing.** Boxing and baling are extra. As our prices are so low we charge only cost for packing as follows :—

Full-size box.....	\$2.50
Medium .....	2.00
Small.....	1.50
Baling. 25 cents to .....	1.00

**Guarantee of Genuineness.** We exercise the greatest care to keep our varieties pure and true to name, and hold ourselves ready to replace any trees that do not prove true to label.

**Substitution.** *Only* in case we are out of a variety will we replace with other varieties of equal or greater value. If so desired write plainly *No Substitution*.

**We guarantee no San Jose Scale** on our stock.

**Complaints or Claims,** must be made within ten days after receipt of goods.

**Rates Allowed.** Our prices are very low, and we in addition offer the following application of the rates :—

5 trees at 10	Rates
50 “ “ 100	“
500 “ “ 1000	“

**Guarantee of Health.** All of our trees have been recently inspected by the proper authorities and a certificate granted as follows:

No. 116

{ STATE OF NEW YORK  
{ DEPARTMENT OF AGRICULTURE.

## Certificate of Inspection of Nursery Stock.

This is to certify that the stock in the nursery of C. F. Mac Nair & Co. of Dansville, County of Livingston, State of New York, was duly examined in compliance with the provisions of Chapter 482 of the Laws of 1898, and is found to be apparently free in all respects from contagious or infectious plant disease or diseases, or San Jose scale or other dangerously injurious insect pest or pests.

Dated August 22, 1898, Albany, N. Y.

C. A. WIETING,  
Commissioner of Agriculture.

## FRESH DUG TREES.

The trees offered in this list are now growing here *in the nursery row* and are *all young, all vigorous, and Right in Every Way in Root, Body and Branch.*

### HOW TO GET TREES IN GOOD CONDITION

Always order enough trees to pack in a *box*. In this way they will not dry out or freeze or be broken.

**Baling** will not keep trees in good shape under all circumstances. *Box trees if possible.*

Those desiring to become agents can have our 80 page illustrated catalogue and order blank free.

# Fruit Department

## STANDARD APPLES.

For some years the apple tree has been selling at very low prices and now that apples brought as high as \$4.00 per barrel and sold readily in the orchards at prices ranging upward of \$2 00 per barrel during the past fall and are now in New York quoted at \$3.00 to \$5.00 per barrel it is time to buy apple trees and plant a large orchard on every farm where soil and climate promise profit.

Many planters have doubted the wisdom of planting apple trees, and the same men now wish they had the orchards. *Buy now while trees are cheap.*

## THE BISMARCK APPLE.

This new apple is certainly wonderful in its ability to bear fruit while yet nothing but a little bush. Trees *only two years* planted in the nursery, and while still less than three feet high have borne as much fruit as the tree would be able to stand under. *Hundreds* of trees only two years old were full of fruit last year in the nursery row. We are entirely willing to leave this apple to the decision time will give it among fruit growers. For planting in the western country where winds are strong it has no equal for it is dwarf in habit and can be planted closely. Read what is said of it in the Rural New Yorker the past fall. We advise every one to have a planting of this variety for you *get fruit at once*. The tree *will fruit as soon as the roots are firmly established*.

 See Bargain List page 14

**Description.** The fruit is large with a yellow ground and a blush on the sunny side. The quality is fully equal to Baldwin and it keeps readily into March and later.

Prices	Each	10	100
1 year grafts 6 to 12 inches.....	20 cts.	\$1.80	\$15.00
2 " " 12 to 24 inches.....	25 cts.	2.00	18.00
2 " " 24 to 30 inches.....	30 cts.	2.50	20.00
Top worked, 2 yr. heads 5 to 6 ft.....	\$1.00	8.00	70.00

## STANDARD PEARS.

Our trees are grown on a very strong clay upland and have that bright, clean, healthy look so much sought after by the purchaser. We use only the French branched root which excel in quantity and length. As we dig by power we leave no bruises on the root such as found in hand digging. Now is the time to plant, for next fall and spring Standard Pears will cost more money.

Our Orchard gave us ripe pears on July 25th last summer, and if we can have choice pears all winter like apples *you* can do the same thing. *Buy now while cheap.*

Prices	per 10	100	1000
$\frac{3}{4}$ to inch, 5 to 7 ft.....	\$1.50	\$12.00	\$90.00

Bartlett  
Clapps  
Keiffer

Louis Bonne  
Lawrence  
Seckel  
Wilders Early

Duchess  
Idaho  
Vermont Beauty

We can recommend the Duchess and Lawrence as particularly desirable in dwarfs. No winter pear is finer than the Lawrence.

## PLUMS.

Our two year trees in both Japan and European sorts are very fine indeed and will please every customer who secures them. The **Two Year Japans** are especially fine and we wish to call the attention of our customers to the **Abundance** and **Burbank** in this form. The Japan plums have come to stay and have been tested fairly and sufficiently in most parts of the country so that customers need have no fear to plant in any quantity. We can especially recommend the big four, **Abundance**, **Burbank**, **Wickson** and **Red June**.

### SEE ALSO THE ONE YEAR LIST.

In the European sorts we can offer splendid *two year trees, right in every way, fresh dug, bright, clean and straight, At Bargains.*

## ONE YEAR JAPAN PLUMS.

Owing to the heavy demand for Japan Plums we offer the one year trees with confidence that they will suit our customers in every way. At one year they make a very fine tree and ours are larger and stronger than usual. **For Spring Planting** the one year Japan is fully as desirable as the two year. We plant them in our own orchards and know from experience that they will suit, in all ways, as well as two year trees. **Abundance**, **Burbank**, **Wickson** and **Red June** are all valuable commercial varieties which we can supply.

Prices, 1 yr. Branched	Per 10	100	1000

YELLOW JAPAN OR CHASE.

ABUNDANCE.

WICKSON.

HALE.

### THE NEW PLUM, HALE.

We offer this very valuable new plum for the first time knowing that it has the highest possible recommendations. It was originated by Mr. Luther Burbank of California and he says of it as follows: "It was the *most vigorous, most productive, handsomest, most uniform and, next to the Wickson, the best flavored Japan Plum I have ever seen*. No one who has ever tasted the fruit of *Hale* when ripe will say the fruit of any European is superior. Many have compared it to the Green Gage and Reine Claude, and *I do not know of any fruit that will keep longer.*"

Description:—Fruit large, bright orange, mottled with cherry red, *quality superb*, being equal to Imperial Gage, and ripens in Middle of September. The *strongest grower among the Japans*.

Price	Each	10	100
1 year trees, branched, 4 to 6 ft. ....	25 cts.	\$2.00	\$15.00
1 " " " 3 to 4 ft. ....	20 cts.	1.75	12.00

### CHERRIES.

Owing to the fact that cherries are very scarce and high in price it will be necessary for all who contemplate buying to get in orders as soon as possible. This is particularly true with *sour* sorts. Early Richmond, English Morello and Montmorency are very scarce; order quickly to get them.

We divide the Cherry into two classes for convenience of description. The sweet sorts being very large and heavy growers while the sour sorts are more dwarf in habit. For the convenience of our customers we make separate lists of the two classes. With us the Cherry has proved very profitable and in our judgment no varieties equal the Empress Eugenie and Late Duke in size, color, quality, bearing habit, and all around desirable qualities. Both are moderately acid and fine for canning. We have never seen either variety on the market. **Try 100 of them.**

Prices	Per	10	100	1000
$\frac{3}{4}$ to inch, $\left\{ \begin{array}{l} 5 \text{ to } 7 \text{ ft. Sweet. } \\ 4\frac{1}{2} \text{ to } 6 \text{ ft. Sour. } \end{array} \right\}$ .. .. .	\$2.00	\$14.00	\$120.00	
$\frac{5}{8}$ to $\frac{3}{4}$ , $\left\{ \begin{array}{l} 5 \text{ to } 6 \text{ ft. Sweet. } \\ 4 \text{ to } 5 \text{ ft. Sour. } \end{array} \right\}$ .. .. .	1.50	12.00	100.00	
$\frac{1}{2}$ to $\frac{5}{8}$ , $\left\{ \begin{array}{l} 4 \text{ to } 5 \text{ ft. Sweet. } \\ 3 \text{ to } 4 \text{ ft. Sour. } \end{array} \right\}$ .. .. .	1.25	10.00	90.00

Gentlemen: The trees arrived in fine shape. I have never got such fine trees as these before, the Cherries are very fine.

Yours truly, C. L. S.

NEW JERSEY

### THE OCTOBER CHERRY, NEW.

This new and valuable variety introduced from Germany fruits very late after all other sorts are out of market. We believe it to be valuable on account of extending the cherry season and should bring high prices in the market. There are two varieties of the October but we have the sweet variety only. The tree is a very strong grower both in nursery and orchard and we believe every one should have a few trees for trial.

Prices	Each	10	100
$\frac{3}{4}$ up, 5 to 7 ft.....	50 cts.	\$4.00	\$30.00
$\frac{5}{8}$ to $\frac{3}{4}$ , 5 to 6 ft.....	40 cts.	3.00	25.00

### PEACHES.

We offer for spring planting a very large assortment of choice trees. We believe we are in position to offer peach trees to all planters at prices that will be satisfactory. Where desired, all trees will be *fumigated*. Our Peaches have been *Inspected, Certified, Guaranteed* and can be *Fumigated*. We have no Scale and no Yellows. All are grown from Tennessee natural seed and are *Right in Every Way*.

To large planters and buyers we offer special inducements.

Prices	Per	10	100	1000
9-16 inch up, 4 to 6 ft.....	\$1.20	\$6.00	\$40.00

### THE NEW PEACH, DR. P.

This is a new variety which originated at Bridesburg, Pa. The tree grew on ground adjoining the railroad and in spite of coal dust the fruit grew to the very highest color and general appearance, while in size it is excelled by none. The quality is of the very best, being sweet, juicy, and yet firm for shipping. The flesh is yellow and melting. In all respects it appears to equal the Crawfords. Every one should have a few trees for trial. For our own orchards we believe it will prove valuable.

Prices	Each	10	100
9-16 up, 4 to 6 ft.....	25 cts.	\$2.00	\$15.00
7-16 to 9-16, 3 to 5 ft.....	20 cts.	1.75	12.00

Esteemed Sirs: The trees arrived to-day, and to say they are splendid is but a mild way of expressing it, they are as good as many trees at 50 cents each.

NEW JERSEY.  
Yours, D. R. K.

See Bargain List page 14.

## QUINCES.

Our Quince trees are very strong, having been grown on heavy land and will bear planting better than if grown on light soil. All are *two year* and *Right In Every Way*.

Prices	Each	10	100
4 to 5 ft. very strong.....	20 cts.	\$1.50	\$12.00
3 to 4 ft. very nice.....	15 cts.	1.20	10.00

## BORGEAT QUINCE.

This new variety is attracting great attention because of the wonderful vigor of growth, and the fine appearance of the fruit. In the nursery the tree grows more like an apple tree than a quince having that *strong, vigorous* and *straight* body with branches that run straight up like an apple and average from 5 to 8 ft. at *two years*. It is a *much stronger grower than the Champion*. The fruit is very large to largest, among quinces, and is a full golden color and unusually handsome. It is said to fruit while very young.

*In our judgment it far surpasses all other quinces, in fruit and tree.*

Prices	Each	10
5 to 6 ft. very strong.....	40 cts.	\$3.00
4 to 5 ft. first class.....	30 cts.	2.50

## Russian Apricots, 2 yr. 4½ to 6 ft.

# Bargain List

Every tree in this list is now standing in the nursery row.

Every tree will be fresh dug in the spring.

All of them are **Right in  
Every Way.**

We have a moderate surplus of the trees given in this list, and which we offer at a discount, simply because they are not selling so rapidly as usual and to dispose of the surplus we offer them quite cheap. They are *healthy, stocky and strong* are *well furnished* in both *top and root*, and are *right in every way*. Please remember that we have no trees in trenches to dispose of in this list, but all are absolutely as we describe. These varieties will sell *next spring at twice our price*.

**No Bundles Broken at these Prices. Ten in Each Bundle.**
